SWEDISH GINGERBREAD — RECIPE

Ingredients

2 dl water

1/2 dl molasses

5 tbsp of ground cloves

2 tbsp ground cinnamon

2 tbsp ground ginger

approximately 100g of softening butter

1 egg yolk

1 tsp sugar

400g of non-spreadable butter

1.5 kg of white flour

Method

First, combine sugar, cloves, cinnamon, ginger, salt and let combination of acids for 10 minutes while stirring. Allow to stand for about 5 minutes. Beat butter and sugar in a mixer. Add the subsequent spices liquid. Then, work in flour one work it in until you get a smooth, sticky dough. Allow to rest for 10 minutes and refrigerate overnight, but preferably even longer (the dough may be refrigerated for up to 2 weeks, and the flours will absorb even more).

Heat the oven to 200°C (392°F). Flatten the dough from the end so it may get to near temperature before baking with it, when it's too cold it's hard to bake with. Put out the dough, really thin so it bakes surface quickly with flour and bake out sides with cookie cutters. Place on sheets covered with parchment paper and bake the gingerbread in the middle of the oven for about 10-12 minutes.
